SIR,

In forwarding herewith copy of letter No. 325 dated 23rd November 1912 from the Deputy Commissioner, Kolar, requesting for a special Establishment of 12 menials on Rs 8/- each temporarily for a period of 3 months, I have the honor to state that as all the available Sub-Inspectors and menials are now working in the Detective Establishment, it is not possible to draft men from the surrounding Ranges to make up a party to watch the Ganja crop this year as was done in the last year. It is therefore necessary to have an extra Establishment for the purpose, as re-commended by the Deputy Commissioner. I therefore request that very early

Sir,

I have the honor to state that the ganja crops in the Goribidanur Taluk are nearing maturity and are already forming Kallies. They are expected to be ready for harvesting in about six weeks' time at the most. It is therefore necessary to appoint a temporary staff of watchers to guard the crop both day and night so as not to give room for smuggling. As it was under contemplation to withdraw all the Patrol

G1'B—5,76,000—6-4-12

Sub-Inspectors in the District and also a staff of menials and to place them on special duty near the ganja fields for watching the crops till the harvesting and curing operations were completed, a reference was not made earlier for the employment of the temporary Staff Now as all the Patrol Sub-Inspectors in the District and some menials have been withdrawn for the formation of a Detective party in accordance with Government Proceedings No. Fl. G 133-5 / S.R 175-10-7 dated 17th October 1912 and have been placed under the Control of the Detective Superintendent, their services are not now available for the purpose. The menial staff in the District is very limited and is hardly able to meet the legitimate requirements of the several Ranges. It is not therefore possible to withdraw any of the menial staff from any of the Ranges and to make their services available for watching the ganja fields. A temporary staff of 12 watchers on a pay of Rs 8/- per mensem will have to be employed for a period of three months at the least from 1st December 1912. Careful watching of the crops from the time of the formation of the Cullies up to the end of the harvesting and

(Sub in another connection) M.

and curing operations is very essential.

The area under crop last year was about 40 acres - out of which the crop in nearly half the extent proved useless as the plants did not even form cullies. For the purpose of watching the crops in the remaining 20 acres the services of 4 markers from the Goribidanur Range two Markers and one Sub-Inspector from the Maddagiri Range, two markers from the Bagepalli Range and one Assistant Inspector and his peon from the Bangalore City were made available. The present area under crop in the current year is a little more than 100 acres distributed over six villages. In order to prevent the smuggling of the drug, it is necessary that a sufficient number of watchers should be employed to guard the fields both day and night. If found necessary an Assistant Inspector from the Gold Fields will be temporarily withdrawn and placed on special duty near the Ganja Fields till the harvesting and curing operations are over. I, therefore, request the favor

favor of very early sanction being kindly accorded for the entertainment of the temporary staff of 12 menials from the 1st December 1912.

A suitable press for the manufacture of ganja into cakes and a weighing machine for weighing the ganja are also required. If found necessary a reference may kindly be made to the authorities at the Daggupod Stores as to the kind of the press they are using for preparing the ganja into cakes and a similar one may kindly be caused to be supplied here for use.
